As its authorized service partner for T-ISS release hooks

In compliance with the requirements of IMO resolution MSC. 402(96) and MSC404(96) to supply, inspect and service the following T-ISS Release hooks:

T-ISS PX-01, PX-02 and PX-03

All T-ISS Release hooks require a service pack to be installed, during the 5-yearly service. The service pack contains all wear-parts which need to be replaced and a Certificate of Serviceability (COSY) for that specific hook.

Authorization valid from 01/01/2021 to 31/12/2023
